SUMMARY

Motivated ML developer skilled in JavaScript , React , Node.js , Python, and Excel, focused on building clear UI and solving real-world problems with smart logic . Continuosly learning new technologies and seeking opportunities , grow , and create meaningful Projects with a great team

VIKASH

EDUCATION

G.L.A University Mathura (Uttar Pradesh)   *Cgpa : 7.75*

- Bachelor of Technology (Computer Science)

SKILLS

•	**Databases** :	SQL ,MONGO DB
•	**Frontend Languages** :	HTML , CSS , JS
•	**Programming Languages** :	PYTHON , JAVA , C
•	**Libraries/Framework:**	NODE.JS , EXPRESS , REACT
•	**Tools / Plateforms :**	GIT , VSCODE , EXCEL

PROJECT

Smart Complained Tracking   react express Mongodb

Online platform where students submit complaints and track progress status Implemented backend routing and complaint category based allocation

Github repo :

Complained priority detection ml mode   python

Built an ML model to classify complaints into categories (Urgent / Moderate / Normal) Used NLP preprocessing + classification model (mention algorithm if possible like SVM/Logistic)

School Management System   react express node python

Teachers can mark attendance, upload marks & view performance Students can view their daily attendance %, overall attendance & marks Certifications react express node python

CERTIFICATIONS

- IIT Delhi – Ethical Hacking
- NEC Certifications

INTERNSHIP
